## DETAILED ACTION

### *Claim Rejections - 35 USC § 102*

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 21-24 are rejected under 35 U.S.C. 102(e) as being anticipated by Wark [US 6,710,614].

Regarding claim 21, Wark discloses a method of manufacturing a server housing comprising:

- the steps of providing a server chassis (3) having an opening through a side thereof (figure 2a);
- providing a board holder (1) disposed within the server chassis and adapted to pivot relative thereto into first and second positions (figure 2a) with first position facilitating insertion of a mid-plane circuit board (19) into the board holder via the opening and the second position facilitating coupling of electrical component to the mid plane circuit board.

Regarding claim 22, Wark disclosed the steps of providing the mid-plane circuit board within the board holder.

Regarding claim 23, Wak discloses the steps of providing electrical component coupled to the mid-plane circuit board.

Regarding claim 24, Wark disclose the step of providing a securing member (25) for the board holder.

***Allowable Subject Matter***

3. Claims 1-16 are allowed.

The following is an examiner's statement of reasons for allowance:

Regarding claim 1, Wark in view of Farnworth fail to teach or suggest in the claimed combination a circuit board holder pivotably mounted in a chassis is operable to receive a mid-plane circuit board having a first electrical connector for connecting components disposed on a first side of the mid-plane circuit board and a second electrical connector for connecting components on an opposite side of the mid-plane circuit board.

Regarding claim 9, Wark in view of Faarnworth fail to teach of suggest in the claimed combination a method of making the structure of the computer server as claimed in the claim 1. Therefore, it's allowable due to the same reason as above.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Response to Arguments***

4. Applicant's arguments with respect to claims 1-16 and 21-24 have been considered but are moot in view of the new ground(s) of rejection.

***Conclusion***

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
